Biratchowk, Morang, Nepal

PROFILE

A second-year **BIT (Hons) Computing student** with practical experience in programming, web development, **databases**, and data analysis. Skilled in **Java, Python, HTML/CSS, React, Node.js**, and **networking** (LAN/WAN, Cisco Packet Tracer, Windows Server 2022). Experienced in teamwork, problem-solving, and communication through academic projects and innovation events like **Futurama**. Quick learner, adaptable, and eager to apply technical skills in a professional internship while contributing positively to organizational goals.

EDUCATION

BSc (Hons) Computing

Itahari International College (2024 – Expected 2027) | Affiliated with Coventry University, UK

- Currently in the 1st/2nd year of a 3-year Honours degree programmer.
- Coursework includes: Data Structures & Algorithms, Web Technologies, Database Systems, Software Engineering.
- Actively working on academic projects applying full-stack development skills.

Higher Level Education ,+2

Sukuna Secondary School – Computer Science (Management)

- Participated in school-level innovation and tech event, showcasing projects and creative problem-solving skills

SKILLS

Technical Skills:

- **Programming Languages:** Java, Python
- **Web Development:** HTML, CSS, JavaScript, React, Express, Node (basic)
- **Database Management:** MySQL: designed and implemented databases for projects like **Sajilo Yatra**
- **Networking & Routing:** Basic network concepts, IP addressing, LAN/WAN configuration, routing fundamentals
- **Tools & IDEs:** BlueJ, IntelliJ IDEA, VS Code, Git & GitHub, Cisco Packet Tracer
- **Software & Platforms:** Microsoft Office (Word, Excel, PowerPoint), Windows Server 2022
- **Other Skills:** Problem-solving, OOP concepts, GUI design

Soft Skills:

- Problem Solving & Analytical Thinking
- Quick Learner & Self-Motivated
- Attention to Detail
- Team Collaboration & Communication
- Time Management & Deadline Orientation
- Adaptability in Fast-Paced Environments

PROJECTS

- **Wheather Pulse:** A web-based weather application that allows users to search weather information for Nepal cities using live weather data. The application fetches real-time forecasts and displays weather conditions through a simple and responsive interface.

Technologies/Tools Used: Python, Flask, HTML, CSS, JavaScript, Open-Meteo API

- **Hostel finder:** A web-based hostel management and booking system that allows users to explore available hostels, register accounts, book hostels, submit reviews and complaints, while providing an admin dashboard to manage users, hostels, bookings, and feedback.

Technologies/Tools Used: JAVA, JSP, Servlet, JDBC, MySQL, HTML, Apache Tomcat, Git, Maven

- **FreelanceHub:** Developed a full-stack freelance marketplace web application that enables clients to post projects, freelancers to submit bids, manage contracts, leave reviews, and provides an admin dashboard for user and project management.

Technologies/Tools Used: Java, Jakarta Servlet (Servlet API), JSP, Maven, MySQL, JDBC, HTML, CSS, JavaScript, Apache Tomcat, Git.

Achievements

- Successfully completed a full-stack web development project using React and Node.js
- Developed academic projects including a Java-based Gym Management System and a Python Inventory System
- Gained strong foundational knowledge in database systems and web development
- Demonstrated effective teamwork and collaboration through group projects
- Currently enhancing knowledge in Smart Data Discovery and data analysis techniques
- Completed **Java Independent Learning Certificate**

LANGUAGES

Nepali (Native) | English (Professional Working Proficiency) | Hindi (Conversational)
